

The geysers are gustier, the bison are more sociable. Of course there is the obvious beauty of a deep covering of billowy snow. But the marvels of this icy world are a dramatic contrast to the familiar summer glories, and the pleasures of this season have a special delight because they are rarer, unexpected.

The cold barely diminishes the activity of the thermal basins. In fact, erupting geysers, steaming hot pools and mud pots look more impressive than usual because of increased condensation in the cold air. Their dense mists hover over branches and freeze into u covering of shimmering crystal, creating "ghost trees."

The thermal basins mean warmth, life in the valleys. The bison, moose, mule deer, elk, coyote and antelope move down from the high country for the season. There are wildfowl to be seen, too, but the bears are tucked away, sleeping in their dens until spring.

Winter visitors, wildlife watchers and photographers may travel the rugged way, on snowshoes or skies. Most, however, explore by car, and now by snowmobile also. Besides the individual ones, there are 12-passenger, heated snowmobiles which take visitors around on organized tours.

An experience, an adventure, more than a touch of wonder. In Yellowstone in winter Nature is still a mystery-and at the same time a revelation.

in sports is the "game plan." A football team plans to use ball control and to try to run against a certain defensive player. A basketball team tries a full-court press instead of a zone defense and so on.

In bridge, each hand is a separate entity but the winning player adopts a "hand plan' at trick one. He decides on his first play or plays with every intention of allowing for changes as he obtains information.

South notes that the heart lead has given him a good start. Not that the heart finesse wasn't on for him all the time but rather that the problem about that finesse has been eliminated. His first plan is to go after trumps. If they break 2-2, he may take all 13 tricks. If they break 3-1, he must ruff his third heart in dummy and hope it won't be overruffed.

There is some possible merit to a spade lead at trick two, but South decides that the simple play of a high trump is indicated. He leads his ace of trumps and West shows out.

It is time for a new game plan! You are now faced with a sure trump loser and two probable club losers. You are going to have to get rid of one of them. You can do it with luck. Plan for the

You cash dummy's ace and king of spades and ruff a third spade. Everyone follows and business is looking up a trifle. Now you take your high heart and ruff your last heart. East follows to that and you are home. You simply play another spade from dummy and discard a club while East has to ruff with his trump trick. (Newspaper Enterprise Assn.)

DEAR DR. LAWRENCE: have a good set of teeth but can't wear them because they make me sick to my stomach after they're in for only a short time. I'm 69 years old and live on Social Security and can't afford a new set, but my children want to chip in and pay for My questions are: Can the

teeth from the old dentures be used for the new ones? How much do dentures cost now? Do you think it's worth it? Can you recommend a local dentist? Do you think he'll guarantee that the new teeth will fit?-Mr. Medford DEAR MR. MEDFORD C: Your questions are only a few of the many that you

should ask your dentist on the very first visit, Indeed. the main purpose of this first visit should be for just such consultation between patient and dentist. Don't be bashful. Ask questions and listen to the answers. Here are some more to ask: What can I do about

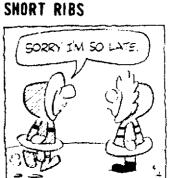

gagging or whatever it is that makes me sick to my stomach? Can you fix up my old dentures or do I need new ones? How long will it take? How many visits? Is there a reasonable chance that I'll be able to wear the new dentures? Will I be able to eat a normal diet?

And, will I require many adjustment visits after the dentures are completed? Do you charge for these visits or are they included in the original cost of the dentures?

Will I see the teeth arrangement before they are completed? What kind of teeth will you use, porcelain or plastic? Are they breakable? How much will the new dentures cost? Is a time payment plan available?

Of course, one can't expect a guarantee; you're not purchasing a piece of hardware. Nor can you expect definitive answers to many of these questions. But asking the questions and getting explanations should be helpful in understanding the limitations of wearing false teeth, its cosmetic and functional advantages and disadvantages and, in fact, its effect on your way of life,

pressure-packed NCAA tourney competition is amazing. It started in 1964 when the Bruins won their first title by beating Seattle, San Francisco, Kansas State and Duke. In 1965, Brigham Young, San Francisco, Wichita State and Michigan were the victims.

UCLA didn't qualify for the tourney in 1966, but the streak resumed in 1967 with victories over Wyoming, U. of Pacific, Houston, and Dayton. In 1968 the Bruins extended it by beatink New Mexico State, Banta Clara, Houston and North Carolina and last season by whipping New Mexico State, Santa Clara, Drake and Purdue.

Wills Makes Like Slugger in Exhibitions

BY BEX THOMAS Associated Press Sports Weller Stire, everybody knows Maury Wills can steal bases, But a slugger? You've got to be kid-

ding. The 37-year-old Los Angeles veteran not only hit a home run Friday, he also had a two-run triple to break a 5-5 deadlock in the ninth and propel the Dodg-ers to a 9-5 victory over the Minnesota Twins in exhibition baseball.

The odds on Wills getting a Chicago (N) 4, California 2 San Diego 6, Cleveland 4 New York (A) 5, Baltimore 1 Baltimore (B) 10, New York home run are astronomical. In his 10-year major league career, he's had a total of 17. And he's only had 64 triples in over 6,000 trips to the plate.

The loss was the sixth straight for the Twins, who got homers from Leo Cardenas and Rich Reese. Jim Lefebyre homered

for the Dodgers. Ted Williams' Washington Senators tasted their first defeat in six games this spring training, losing 6-4 to the Atlanta Braves. Hank Aaron connected for a pair of home runs in consecutive trips to the plate and drove in five of the six Atlanta

runs against Washington. Lou Brock clouted a home off Jim McAndrew and later got a triple as the St. Louis Cardinals downed the world champion New York Mets 7-1. It was the fourth straight Grapefruit League triumph for St. Louis, which used four pitchers in 11miting the Mets to seven hits.

The Philadelphia Phillies, behind outfielder Larry Hisle's Chicago (A) vs Detroit at Sarfour RBIs, downed the Boston Red Sox 6-1. Lunn Could Be Next Big **Golf Winner**

By BOB GREEN

Associated Prss Golf Writer PENSACOLA, Fla. (AP)-Bob Lunn, who burst out of the shadows of obscurity with a dramatic victory over Arnold Palmer, could be pro golf's net big winner.

But he's not yet ready to claim the status of a star. "No," he said when asked if his nationally-televised triumph the next frame, Byron Browne in the Florida Citrus Invitational last week should boost him into such a category. "I don't think so. I have a lot to do to prove

> The comment was typical of the big, quiet guy who ranked as one of the favorites today in the first round of the \$150,000 Monsanto Open.

He's only 24 and has made one of the fastest starts on the protour since Jack Nicklaus. He has been on the tour since 1966, has claimed four titles in the last three years, has one \$100,00 season behind him, and currently leads the 1970 money winning list.

POINTMENT

Willie Cooper, a junior from Hope has been appointed to the regional Student Council on Pollution and the Environment board headquartered in Dallas, Texas.

Cooper Is the second Tech student to be named to the regional board, Gary Rowlands also holds position.

"I am very proud to be appointed to the board and am sure that my participation will help me and the group to utilize means available in solving environmental problems, particularly water problems," stated Cooper.

He expressed confidence that our nation's pressing pollution problem can and will be solved by youth, who care about their environment and who will make the needed sacrifices to correct the situation of national importance.

Cooper is a 20 year old sociology major and is the son of Mr. and Mrs. Charles Cooper.

More Funds Asked for **Projects**

By JOHN LENGEL Associated Press Writer

WASHINGTON (AP) - The usually economy minded Nixon administration is seeking a hefty increase in funds for some State Department programs one official says provides a "bigger payoff here per dollar than anything else the United States does.

The administration is asking some \$40 million, an increase of about 20 per cent, for the projects, including the well-known Fulbright scholarships. The money is looked on as low cost coverage of a gray area of diplomacy where the returns are longterm, immeasurable, but perhaps, someday, critical.

State says the broad purpose to all this is a useful interaction of people, stronger relationships in a world where economic, political and military affairs are affected by the way a country's leadership group feels.

'You begin to get groups, acgin to feel a bond with one another," says John Richardson, assistant secretary for Education and Cultural Affairs. "This is an important fact and reflects the feeling of the government."

With this in mind the money makes it possible for historian Clinton Rossiter to lecture at an African university, the chief justice of Malaysia and Filipino labor leaders to come to the United States.

The State Department's statement dropping opposition to repeal came in a letter to Fulbright, who had requested it. The senator's committee will start hearings on the resolution next week and Undersecretary of State Elliott Richardson is scheduled to elaborate on the administration's stance.

In December, the State Department formally opposed Mathiss' move. But in the letter, released Friday, it said "wenels ther advocate nor oppose congressional action" on the repeal effort.
